

**Detection of c-myc-tagged Protein by western blot.**

Samples: 200, 100, or 50 ng of E. coli whole cell lysate expressing a multi-tag fusion protein. *Antibodies:* Affinity-purified, HRP-conjugated, goat anti-Myc Tag antibody A190-104P used for WB at 0.04 µg/ml (1:25,000).

Detection: Chemiluminescence with an exposure time of 10 seconds.
